

How-To

Delete an iOS app when using Voice Over

The default Voice Over action reads the icon names of highlighted apps then says 'double tapping will open the app'.

- 1** **Navigate** to the app that you'd like to remove.
- 2** With the app icon highlighted, don't double tap; **double tap and hold it down**
- 3** You'll hear a **tone** and Voice Over will tell you that you are, "moving application name"
- 4** **Double tap** an alert will appear to confirm you want to delete the app
- 5** Choose Delete or Cancel and **double tap** the selection **to delete the app** from your device or cancel
